

Ecogranite Chartres Block Paving

Data Sheet

a Forterra brand

Comprising of three modular sizes, each layer of our combined block paving is mixed to help create a variety of laying patterns. Ecogranite Chartres is also available as a large block that can be laid on its own or for use as an edging detail. The bush hammered finish exposes sparkling granite and provides an excellent skid / slip resistance quality. A corresponding kerb system, edging and starter circle has been specially designed to complement the range.
